

Project Development Phase

Project Development - Delivery of Sprint-1

Date	23 November 2022
Team ID	PNT2022TMID25280
Project Name	Project – Analytics for Hospitals' Health- Care Data

Task 3: Data Preparation (Data Module) and Exploratory Data Analysis

Data Preparation

Step 1: Adding Data Source

The screenshot displays the IBM Cognos Analytics web interface. A modal dialog titled "Add a data source to explore" is open, showing a list of available data sources. The list includes folders like "Assignment 1", "Assignment 2", and "Hospitals' Health-Care Data", as well as various uploaded files and data modules. The file "test_data.csv" is highlighted. The background interface shows the "Data Exploration" perspective with a search bar, navigation tabs, and a sidebar with an assistant.
